

## Join Our Monthly World Healing Sessions

🌀 Every session, from wherever we are, hundreds of participants send unconditional love or distant healing energy to all people, nature & the planet. Together we create a synergistic tidal wave of healing energy for our world to heal. A simple solution helps all people & environmental issues which need healing.

Through synergy and a real large number of participants, we can tilt the balance in the world for good. The synergistic power of group meditation-joint prayer is documented through anecdotes.

Focus on a fundamental shift of our world for good: i.e. to help create a balanced, fair, interesting, healthy, sustainable world with food, freedom, joy, peace & love for all people.

If you want to make a difference in this world, you can. **Join!** Participation is free. One hour, each moon cycle – schedule online.

Sign in with your name, city & country at: <http://www.therapeuticreiki.com/blog/>

## What Is It Like To Participate?

🌀 Every session is a unique experience. This participant's experience describes a session:

**"It was incredible!** At 9, I went to the beach, got a small log to sit on, made a circle with and sat inside. I and sat inside. I eyes. ...

My chakras was a rainbow

on, made a purple shells closed my

opened. I inside this

light. ... I saw dolphins ... I was two arms hugging the world.. There was a wolf on the beach... I was inside a giant oak tree, saw white flowers everywhere, green grass, a lake... **Gold dust fell onto harmful events turning them to love, joy & healing.**

I felt & heard many people with all their love and healing - it was astounding! At 10, I saw a circle with loads of footprints behind me - amazing! I threw the shells in the sea to carry the energy where needed. It was incredible - one of the most amazing experiences. I felt like I got some healing too! p.s. When is the next one?"

## Benefits of Distant Reiki

🌀 Distant healing helps heal a person on all levels, in many situations.

On an emotional level, Reiki helps heal hurt, allowing the person to view personal relationships from an

empowering perspective. It can make you aware of relationships and situations which are toxic.

It can bring harmful patterns of thinking to your consciousness for healing. It can help combat smoking, eating, shopping and chemical addictions. As Reiki reduces anxiety, it enables positive choices of action. It can be a complimentary depression treatment.

## Claim Your Energy Back: Detach Other's Aka Cords

🌀 I first stumbled upon the term 'aka cord' when giving a Reiki treatment to a very experienced

healer. At one point, I felt the urge to symbolically 'cut-off' an energetic attachment to a specific person for her.

With my imaginary sword I cut and freed her from the connection. It was amazing to see the positive physical change that occurred.

The healer explained I intuitively cut off an 'aka cord'. You may wonder, as I did then, "What is an aka cord?"

*You will find many articles for individual healing. **By healing ourselves, we become strong.** And so, we can better help to heal the world.*

## Magnetizing a New Reality Using Crystals & Gems

By Intuitive and Crystals Expert, Christine Paton

🌀 As we embrace a new year it is natural for us to think about what we would like to create for ourselves. Perhaps we make resolutions regarding things we choose to let go.

Change is inevitable and a new year is a powerful time to crystallize change.

Quartz crystals act as memory cards for our visions. When working with quartz crystals it is important that we visualize what we seek to create.

It is best to not spend any time thinking about what we are done with. Focus on the future – what can fill the space left behind when we release what is does not serve our highest good?

Taking time to clear your mind using your favorite practice is a good place to start. Meditation, Reiki, yoga, dance, chanting, and walking are all practices that can clear a busy mind, center us and get us in touch with a place of higher knowing. .”

## Sponsors

🌀 To manage costs involved with setting up the initiative, doing ongoing maintenance and marketing the events, we must have some sponsors today, to move forward. So, I'm holding up Buddha's bowl, and thank you for generosity.

We drafted 4 sponsorship packages:  
FIRE: website article ad, ad in monthly email to participants, website sponsorship listing  
METAL: website article ad + site sponsorship listing  
WATER: website sponsorship listing  
WIND: Anonymous patron

[See blog for details.](#)
